

CELEBRATION AT MONTICELLO.—It was a joyous time—a day long to be remembered. The oration was worthy of the hallowed place, and received the unanimous approbation of the vast assemblage present. The speeches at the dinner table were piquant, and suited to the occasion. A park of artillery boomed from the lawn, and the surrounding hill tops and mountains echoed and re-echoed the joyous celebration of the liberty and independence of the people. After the dinner was over, and the infantry had performed their evolutions and manoeuvres, and the artillery had fired the evening national salute, and preparations for departing were completed, Mr. Alexander, editor of the Jeffersonian, announced that the band would proceed to the chamber where Thomas Jefferson died, and perform a funeral dirge. Hilarity and merriment immediately ensued, and as the solemn music fell upon the ears the tear gushing from the eyes, and the convulsed and heaving heads of the listeners, told that they felt of a great man, and that this chamber was truly a hallowed spot. In front of the tomb, the military passed on the descent of the mountain, presented arms; and, while the band played an appropriate air, Lieut. Col. Verben Baker addressed the Young Guard of Richmond, and the Albemarle Cadets and Monticello Guard, saying that the Monticello Guard proposed erecting over the grave and present monument of Mr. Jefferson, a Roman Cenotaph, a drawing of which he possessed in Mr. Jefferson's hand, and a copy of which he had transmitted for the inspection of Gov. Wise.—*Rich. South.*

WHEAT CROP IN AUGUSTA COUNTY.—The Standard Vindicator says:—"We regret to learn that the expectations of an abundant wheat crop, which were entertained in this section of country a few weeks ago, have been grievously disappointed. Rust has materially injured the crop, particularly the white varieties of wheat. Several well informed farmers tell us that the aggregate yield in Augusta county will not amount to half a crop. One gentleman who farms quite extensively will not make more wheat than will afford bread for his family; and another, who expected to make some three thousand bushels, thinks his crop will hardly be worth threshing. The rust has also attacked the oats, which until recently promised remarkably well."

Wheat Crop in Virginia.—Half a crop of inferior wheat is reported in Caroline County. The same from Stafford, in King George, Westmoreland, and the Northern Neck counties, generally, the accounts are gloomy. In Fairfax, and Prince William, and Loudoun, there is a better yield than it was thought there would be, but still some damage. In the Valley counties, generally, an average crop—in some of them still better. All over the State there are counties here and there in which the harvest will be good—but for the most part the wheat has been more or less injured.

Some complaints have recently been made about the Light on Jones's Point. If any failures have recently occurred, it is owing to the defective lighting apparatus. Mr. Guisenfield, the keeper of the Light House, is a faithful officer, and pays strict attention to his duties—and the burners are constantly under his care every night. Rust has not materially injured the kind of lantern used, but there is a more constant light kept up on the Potomac.

The Pissarinetum collection having failed out, and the Spring dried up, neither, it is hoped, will be heard of more.

LAW AND EQUITY REPORTS FOR SALE.—22 volumes. Report of the Supreme Court of the United States, embracing all the decisions, also 37 vols. English Law and Equity Reports, making 59 vols.

The first named, edited by the Hon. R. R. Curtis, late one of the associate Justices of the Supreme Court of the United States; the latter, by Messrs. Bennett and Smith, containing Reports of cases in the House of Lords, Privy Council, Courts of Equity, and Common Law, and in the Admiralty and Ecclesiastical Courts, including cases in Bankruptcy and Crown cases reserved.

These BOOKS are entirely new, having but very lately purchased them, but which I do not now need, my original Law Library being purchased back. They are very comprehensive, well bound in calf, well arranged, embracing all important Law and Equity cases with copious indices.

To a young Practitioner, they would be invaluable, supplying the place of many hundred volumes and costing not more than the expense. I paid for them \$141 cash, and will take the same, and give a liberal credit for good paper, satisfactorily endorsed. C. NEALE, Attorney at Law.

THE NEW YORK LEDGER, with Cobb's New Story, is now ready. All the Papers for this week on hand, and for sale at GEORGE SINGER'S, No. 75, Prince-street. July 7.

This morning the Secretary of the Navy issued an order for the battalion of United States Marines, stationed at head quarters, to participate in the expected parade of the day."

HEALTH.—The general health of this town and neighborhood, continues very good. We hear now of but very few, if any, cases of scarlet fever among children. To preserve as far as they are able, under Providence, the blessing of health that we now enjoy, should be the aim of the authorities and the citizens.

The Old Soldiers of the war of 1812 met in Washington, on Monday last, at the City Hall, formed in procession, and marched to the White House, where an interesting meeting took place between them and President Buchanan, who received them with that courtesy for which he is so distinguished. VALUABLE FARM FOR SALE!—The undersigned, for the purpose of partition, offer for sale their farm called "CARTERS GREEN," containing six hundred and seventy-five ACRES, situated in the upper end of the county of Prince William, immediately on the road leading from Aldie to Gainesville, and about equidistant from those places, or about 25 miles from each. This farm is divided into 25 fields, besides a meadow and two or three lots. It is beautifully laid out, (the fields being nearly all square) the timber of the best quality, well dispersed over the farm and abundant for all purposes. The whole is well watered, there being no difficulty in watering stock from every field in the district season. The soil is highly fertile, (being mostly chocolate) and well adapted to wheat, corn and grass. Indeed the fertility with which the fields run into bluegrass, after cropping, renders it one of the finest grazing farms to be found within twenty miles of it.

The fencing is all in good order, and the entire farm, in a high state of cultivation. It can winter and graze well, and with 75 or 80 Cattle of good size and with very little expenditure for fertilizers—twelve or fifteen hundred bushels of wheat can be raised thereon annually. The present crop follows wheat on a field of about fifty acres, presents a fair promise of a yield of at least 20 to 25 bushels per acre; the number of Beef Cattle at present grazing on the farm is about 70 and there are one or more fine grass fields scarcely touched and probably well suited for stock.

The DWELLING though plain, is in good repair and very comfortable; the out buildings are also in good order and are quite sufficient in number. The shelters for stock and farming implements &c., are perhaps superior to those to be found on any farm within ten miles. In fine, the undersigned, verily consider "Carters Green" one of the best and most desirable farms to be found in this or any of the adjoining counties. It is nearly a square, is beautifully undulating; easy to cultivate; convenient to market, and in a neighborhood, where the society is refined, hospitable and moral.

Terms will be easy, and for a considerable portion of the purchase money a very liberal credit will be given, if desired. J. T. Carter, who resides on the premises, will take pleasure in showing them to any one who may wish to view them, or letters addressed to either of the undersigned will be responded to. The Post Office of the former is Salem, Fauquier Co., and the latter Haymarket, Va.
